LINALOOL	78-70-6	201-134-4	≤ 0.05

4. FIRST AID MEASURES

4.A Description of necessary measures:

Inhalation: Prolonged exposure may cause irritation in nose and throat with chest discomfort, coughing and difficulty breathing. Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

Skin: May be irritating to the skin (e.g., rashes, welts, dermatitis) at the site of contact in some sensitive individuals. If skin problems occur, discontinue use. If symptoms persist, call a physician.

Eyes: May be irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If irritation persists, seek medical attention.

Ingestion: If product is swallowed, may cause nausea, vomiting and/or diarrhea. DO NOT INDUCE VOMITING. Contact Chemtrec at +1 (800) 424-9300 or the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical

attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration

4.B Most important symptoms/effects, acute and delayed:

See Section 2

4.C Indication of immediate medical attention and special treatment needed, if necessary

No Information Available

5. FIRE-FIGHTING MEASURES

5.A Suitable extinguishing media:

Water, Fog, Foam, Dry Chemical CO₂

Unsuitable extinguishing media:

No Information Available

5.B Specific hazards arising from the chemical:

This product is not flammable or combustible

5.C Special protective equipment and precautions for fire-fighters:

As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Avoid spraying water directly into storage containers because of danger of boil over. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies

6. ACCIDENTAL RELEASE MEASURES

6.A Personal precautions, protective equipment and emergency procedures:

None under normal use conditions

Advice for emergency responders:

Use personal protective equipment

6.B Environmental precautions:

Household:

Do not discharge product into natural waters without pre-treatment or adequate dilution.

Non-Household:

Should not be released into the environment.

6.C Methods and Materials for containment and cleaning up:

Containment: Prevent further leakage or spillage if safe to do so. If released, cover drains.

Clean up: Clean up promptly by scoop, vacuum, or absorbent material. Keep in suitable, closed containers for disposal.

7. HANDLING & STORAGE INFORMATION

7.A Precautions for safe handling:

Keep container closed when not in use. Keep out of reach of children.
Observe label precautions.

7.B Conditions for safe storage, including any incompatibilities:

Storage Conditioners: Keep containers tightly closed in a dry, cool and well-ventilated place.
Incompatible products: No Information Available

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.A Control Parameters Exposure guidelines are not relevant when product is used as intended in a household setting.

8.B Appropriate Engineering Controls:

Handle in accordance with good hygiene and safety practice.

8.C Individual Protection Measures: Personal Protection Equipment:

Eye Protection: Provide eye protection based on risk assessment
Hand Protection: For prolonged & repeated exposure use protective gloves
Skin & Body Protection: For prolonged & repeated exposure use protective clothing
Respiratory Protection: Base respirator selection on a risk assessment

4. FIRST AID MEASURES

4.A Description of necessary measures:

Inhalation: Prolonged exposure may cause irritation in nose and throat with chest discomfort, coughing and difficulty breathing. Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

Skin: May be irritating to the skin (e.g., rashes, welts, dermatitis) at the site of contact in some sensitive individuals. If skin problems occur, discontinue use. If symptoms persist, call a physician.

Eyes: May be irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If irritation persists, seek medical attention.

Ingestion: If product is swallowed, may cause nausea, vomiting and/or diarrhea. DO NOT INDUCE VOMITING. Contact Chemtrec at +1 (800) 424-9300 or the nearest Poison Control Center or local emergency telephone

number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration

4.B Most important symptoms/effects, acute and delayed:

See Section 2

4.C Indication of immediate medical attention and special treatment needed, if necessary

No Information Available

5. FIRE-FIGHTING MEASURES

5.A Suitable extinguishing media:

Water, Fog, Foam, Dry Chemical CO₂

Unsuitable extinguishing media:

No Information Available

5.B Specific hazards arising from the chemical:

This product is not flammable or combustible

5.C Special protective equipment and precautions for fire-fighters:

As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Avoid spraying water directly into storage containers because of danger of boil over. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies

6. ACCIDENTAL RELEASE MEASURES

6.A Personal precautions, protective equipment and emergency procedures:

None under normal use conditions

Advice for emergency responders:

Use personal protective equipment

6.B Environmental precautions:

Household:

Do not discharge product into natural waters without pre-treatment or adequate dilution.

Non-Household:

Should not be released into the environment.

6.C Methods and Materials for containment and cleaning up:

Containment: Prevent further leakage or spillage if safe to do so. If released, cover drains.

Clean up: Clean up promptly by scoop, vacuum, or absorbent material. Keep in suitable, closed containers for disposal.

7. HANDLING & STORAGE INFORMATION

7.A Precautions for safe handling:
 Keep container closed when not in use. Keep out of reach of children.
 Observe label precautions.

7.B Conditions for safe storage, including any incompatibilities:
Storage Conditioners: Keep containers tightly closed in a dry, cool and well-ventilated place.
Incompatible products: No Information Available

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.A Control Parameters Exposure guidelines are not relevant when product is used as intended in a household setting.

8.B Appropriate Engineering Controls:
 Handle in accordance with good hygiene and safety practice.

8.C Individual Protection Measures: Personal Protection Equipment:

Eye Protection: Provide eye protection based on risk assessment
Hand Protection: For prolonged & repeated exposure use protective gloves
Skin & Body Protection: For prolonged & repeated exposure use protective clothing
Respiratory Protection: Base respirator selection on a risk assessment

Clean up: Clean up promptly by scoop, vacuum, or absorbent material. Keep in suitable, closed containers for disposal.

7. HANDLING & STORAGE INFORMATION

7.A Precautions for safe handling:

Keep container closed when not in use. Keep out of reach of children.
Observe label precautions.

7.B Conditions for safe storage, including any incompatibilities:

Storage Conditioners: Keep containers tightly closed in a dry, cool and well-ventilated place.

Incompatible products: No Information Available

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.A Control Parameters Exposure guidelines are not relevant when product is used as intended in a household setting.

8.B Appropriate Engineering Controls:

Handle in accordance with good hygiene and safety practice.

8.C Individual Protection Measures: Personal Protection Equipment:

Eye Protection: Provide eye protection based on risk assessment

Hand Protection: For prolonged & repeated exposure use protective gloves

Skin & Body Protection: For prolonged & repeated exposure use protective clothing

Respiratory Protection: Base respirator selection on a risk assessment

4. FIRST AID MEASURES

4.A Description of necessary measures:

Inhalation: Prolonged exposure may cause irritation in nose and throat with chest discomfort, coughing and difficulty breathing. Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

Skin: May be irritating to the skin (e.g., rashes, welts, dermatitis) at the site of contact in some sensitive individuals. If skin problems occur, discontinue use. If symptoms persist, call a physician.

Eyes: May be irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. If product gets in the eyes,

flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If irritation persists, seek medical attention.

Ingestion:

If product is swallowed, may cause nausea, vomiting and/or diarrhea. DO NOT INDUCE VOMITING. Contact Chemtrec at +1 (800) 424-9300 or the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration

4.B Most important symptoms/effects, acute and delayed:

See Section 2

4.C Indication of immediate medical attention and special treatment needed, if necessary

No Information Available

5. FIRE-FIGHTING MEASURES

5.A Suitable extinguishing media:

Water, Fog, Foam, Dry Chemical CO₂

Unsuitable extinguishing media:

No Information Available

5.B Specific hazards arising from the chemical:

This product is not flammable or combustible

5.C Special protective equipment and precautions for fire-fighters:

As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Avoid spraying water directly into storage containers because of danger of boil over. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies

6. ACCIDENTAL RELEASE MEASURES

6.A Personal precautions, protective equipment and emergency procedures:

None under normal use conditions

Advice for emergency responders:

Use personal protective equipment

6.B Environmental precautions:

Household: Do not discharge product into natural waters without pre-treatment or adequate dilution.

Non-Household: Should not be released into the environment.

6.C Methods and Materials for containment and cleaning up:

Containment: Prevent further leakage or spillage if safe to do so. If released, cover drains.

Clean up: Clean up promptly by scoop, vacuum, or absorbent material. Keep in suitable, closed containers for disposal.

4. FIRST AID MEASURES

4.A Description of necessary measures:

Inhalation: Prolonged exposure may cause irritation in nose and throat with chest discomfort, coughing and difficulty breathing. Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

Skin: May be irritating to the skin (e.g., rashes, welts, dermatitis) at the site of contact in some sensitive individuals. If skin problems occur, discontinue use. If symptoms persist, call a physician.

Eyes: May be irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If irritation persists, seek medical attention.

Ingestion: If product is swallowed, may cause nausea, vomiting and/or diarrhea. DO NOT INDUCE VOMITING. Contact Chemtrec at +1 (800) 424-9300 or

the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration

4.B Most important symptoms/effects, acute and delayed:

See Section 2

4.C Indication of immediate medical attention and special treatment needed, if necessary

5. FIRE-FIGHTING MEASURES

5.A Suitable extinguishing media:

Water, Fog, Foam, Dry Chemical CO₂

Unsuitable extinguishing media:

No Information Available

5.B Specific hazards arising from the chemical:

This product is not flammable or combustible

5.C Special protective equipment and precautions for fire-fighters:

As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Avoid spraying water directly into storage containers because of danger of boil over. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies

6. ACCIDENTAL RELEASE MEASURES

6.A Personal precautions, protective equipment and emergency procedures:

None under normal use conditions

Advice for emergency responders:

Use personal protective equipment

6.B Environmental precautions:

Household:

Do not discharge product into natural waters without pre-treatment or adequate dilution.

Non-Household:

Should not be released into the environment.

6.C Methods and Materials for containment and cleaning up:

Containment: Prevent further leakage or spillage if safe to do so. If released, cover drains.

Clean up: Clean up promptly by scoop, vacuum, or absorbent material. Keep in suitable, closed containers for disposal.

7. HANDLING & STORAGE INFORMATION

7.A Precautions for safe handling:

Keep container closed when not in use. Keep out of reach of children. Observe label precautions.

7.B Conditions for safe storage, including any incompatibilities:

Storage Conditioners: Keep containers tightly closed in a dry, cool and well-ventilated place.

Incompatible products: No Information Available

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.A Control Parameters Exposure guidelines are not relevant when product is used as intended in a household setting.

8.B Appropriate Engineering Controls:

Handle in accordance with good hygiene and safety practice.

8.C Individual Protection Measures: Personal Protection Equipment:

Eye Protection: Provide eye protection based on risk assessment

Hand Protection: For prolonged & repeated exposure use protective gloves

Skin & Body Protection: For prolonged & repeated exposure use protective clothing

Respiratory Protection: Base respirator selection on a risk assessment

4. FIRST AID MEASURES

4.A Description of necessary measures:

Inhalation: Prolonged exposure may cause irritation in nose and throat with chest discomfort, coughing and difficulty breathing. Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

Skin: May be irritating to the skin (e.g., rashes, welts, dermatitis) at the site of contact in some sensitive individuals. If skin problems occur, discontinue use. If symptoms persist, call a physician.

Eyes: May be irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If irritation persists, seek medical attention.

Ingestion: If product is swallowed, may cause nausea, vomiting and/or diarrhea. DO NOT INDUCE VOMITING. Contact Chemtrec at +1 (800) 424-9300 or

the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration

4.B Most important symptoms/effects, acute and delayed:

See Section 2

4.C Indication of immediate medical attention and special treatment needed, if necessary

No Information Available

5. FIRE-FIGHTING MEASURES

5.A Suitable extinguishing media:

Water, Fog, Foam, Dry Chemical CO₂

Unsuitable extinguishing media:

No Information Available

5.B Specific hazards arising from the chemical:

This product is not flammable or combustible

5.C Special protective equipment and precautions for fire-fighters:

As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Avoid spraying water directly into storage containers because of danger of boil over. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies

6. ACCIDENTAL RELEASE MEASURES

6.A Personal precautions, protective equipment and emergency procedures:

None under normal use conditions

Advice for emergency responders:

Use personal protective equipment

6.B Environmental precautions:

Household:

Do not discharge product into natural waters without pre-treatment or adequate dilution.

Non-Household:

Should not be released into the environment.

6.C Methods and Materials for containment and cleaning up:

Containment: Prevent further leakage or spillage if safe to do so. If released, cover drains.

Clean up: Clean up promptly by scoop, vacuum, or absorbent material. Keep in suitable, closed containers for disposal.

7. HANDLING & STORAGE INFORMATION

7.A Precautions for safe handling:

Keep container closed when not in use. Keep out of reach of children. Observe label precautions.

7.B Conditions for safe storage, including any incompatibilities:

Storage Conditioners: Keep containers tightly closed in a dry, cool and well-ventilated place.

Incompatible products: No Information Available

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.A Control Parameters Exposure guidelines are not relevant when product is used as intended in a household setting.

8.B Appropriate Engineering Controls:

Handle in accordance with good hygiene and safety practice.

8.C Individual Protection Measures: Personal Protection Equipment:

Eye Protection: Provide eye protection based on risk assessment

Hand Protection: For prolonged & repeated exposure use protective gloves

Skin & Body Protection: For prolonged & repeated exposure use protective clothing

Respiratory Protection: Base respirator selection on a risk assessment

4. FIRST AID MEASURES

4.A Description of necessary measures:

Inhalation: Prolonged exposure may cause irritation in nose and throat with chest discomfort, coughing and difficulty breathing. Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

Skin: May be irritating to the skin (e.g., rashes, welts, dermatitis) at the site of contact in some sensitive individuals. If skin problems occur, discontinue use. If symptoms persist, call a physician.

Eyes: May be irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If irritation persists, seek medical attention.

Ingestion: If product is swallowed, may cause nausea, vomiting and/or diarrhea. DO NOT INDUCE VOMITING. Contact Chemtrec at +1 (800) 424-9300 or the nearest Poison Control Center or local emergency telephone

number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration

4.B Most important symptoms/effects, acute and delayed:

See Section 2

4.C Indication of immediate medical attention and special treatment needed, if necessary

No Information Available

5. FIRE-FIGHTING MEASURES

5.A Suitable extinguishing media:

Water, Fog, Foam, Dry Chemical CO₂

Unsuitable extinguishing media:

No Information Available

5.B Specific hazards arising from the chemical:

This product is not flammable or combustible

5.C Special protective equipment and precautions for fire-fighters:

As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Avoid spraying water directly into storage containers because of danger of boil over. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies

6. ACCIDENTAL RELEASE MEASURES

6.A Personal precautions, protective equipment and emergency procedures:

None under normal use conditions

Advice for emergency responders:

Use personal protective equipment

6.B Environmental precautions:

Household:

Do not discharge product into natural waters without pre-treatment or adequate dilution.

Non-Household:

Should not be released into the environment.

6.C Methods and Materials for containment and cleaning up:

Containment: Prevent further leakage or spillage if safe to do so. If released, cover drains.

Clean up: Clean up promptly by scoop, vacuum, or absorbent material. Keep in suitable, closed containers for disposal.

7. HANDLING & STORAGE INFORMATION

7.A Precautions for safe handling:

Keep container closed when not in use. Keep out of reach of children.
Observe label precautions.

7.B Conditions for safe storage, including any incompatibilities:

Storage Conditioners: Keep containers tightly closed in a dry, cool and well-ventilated place.

Incompatible products: No Information Available

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.A Control Parameters Exposure guidelines are not relevant when product is used as intended in a household setting.

8.B Appropriate Engineering Controls:

Handle in accordance with good hygiene and safety practice.

8.C Individual Protection Measures: Personal Protection Equipment:

Eye Protection: Provide eye protection based on risk assessment

Hand Protection: For prolonged & repeated exposure use protective gloves

Skin & Body Protection: For prolonged & repeated exposure use protective clothing

Respiratory Protection: Base respirator selection on a risk assessment

5.A Suitable extinguishing media:

Water, Fog, Foam, Dry Chemical CO₂

Unsuitable extinguishing media:

No Information Available

5.B Specific hazards arising from the chemical:

This product is not flammable or combustible

5.C Special protective equipment and precautions for fire-fighters:

As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Avoid spraying water directly into storage containers because of danger of boil over. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies

6. ACCIDENTAL RELEASE MEASURES

6.A Personal precautions, protective equipment and emergency procedures:

None under normal use conditions

Advice for emergency responders:

Use personal protective equipment

6.B Environmental precautions:

Household:

Do not discharge product into natural waters without pre-treatment or adequate dilution.

Non-Household:

Should not be released into the environment.

6.C Methods and Materials for containment and cleaning up:

Containment: Prevent further leakage or spillage if safe to do so. If released, cover drains.

Clean up: Clean up promptly by scoop, vacuum, or absorbent material. Keep in suitable, closed containers for disposal.

7. HANDLING & STORAGE INFORMATION

7.A Precautions for safe handling:

Keep container closed when not in use. Keep out of reach of children.
Observe label precautions.

7.B Conditions for safe storage, including any incompatibilities:

Storage Conditioners: Keep containers tightly closed in a dry, cool and well-ventilated place.

Incompatible products: No Information Available

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.A Control Parameters Exposure guidelines are not relevant when product is used as intended in a household setting.

8.B Appropriate Engineering Controls:

Handle in accordance with good hygiene and safety practice.

8.C Individual Protection Measures: Personal Protection Equipment:

Eye Protection: Provide eye protection based on risk assessment

Hand Protection: For prolonged & repeated exposure use protective gloves

Skin & Body Protection: For prolonged & repeated exposure use protective clothing

Respiratory Protection: Base respirator selection on a risk assessment

9. PHYSICAL & CHEMICAL PROPERTIES

Physical State:	OPAQUE THIN SOFT LOTION
Color:	LIGHT YELLOW
Odor:	FRUITY
Melting Point / Freezing Point:	No Information Available
Boiling Point:	No Information Available
Flammability:	No Information Available
Lower & Upper Explosion Limit / Flammability Limit:	No Information Available
Flash Point:	No Information Available
Auto-Ignition Temperature:	No Information Available
Decomposition Temperature:	No Information Available
pH:	4.00 - 5.00
Viscosity:	2,200 - 9,200 CPS

Solubility:	Water Soluble
Partition Coefficient:	No Information Available
Vapor Pressure:	No Information Available
Density:	No Information Available
Relative Vapor Density:	No Information Available
Particle Characteristics:	No Information Available

10. STABILITY & REACTIVITY

- 10.A Reactivity:** None under normal use conditions
- 10.B Chemical Stability:** This product is stable under normal conditions
- 10.C Possibility of Hazardous Reactions:**
None under normal conditioners
- 10.D Conditions to Avoid:** Open flames, sparks, high heat and direct sunlight.
- 10.E Incompatible Substances:** No Information Available
- 10.F Hazardous Decomposition Products:**
Oxides of carbon (CO, CO₂) and sulfur (SO₂)

11. TOXICOLOGICAL INFORMATION

11.A Information on the likely routes of exposure:

Routes of Entry:	Inhalation:	NO	Dermal:	YES	Oral:	YES
-------------------------	--------------------	----	----------------	-----	--------------	-----

See section 4

11.B Symptoms related to the physical, chemical, and toxicological characteristics:

No Information Available

11.C Delayed and immediate effects and also chronic effects from short and long term exposure:

No Information Available

11.D Numerical measures of toxicity:

Acute Toxicity: No Information Available

Skin corrosion/irritation: No Information Available

Serious Eye Damage/Eye irritation:

No Information Available

Skin Sensitization: No Information Available

Respiratory Sensitization: No Information Available

Germ Cell Mutagenicity: No Information Available

Neurological Effects: No Information Available

Reproductive Toxicity: No Information Available

Developmental Toxicity: No Information Available

Teratogenicity: No Information Available

STOT – Single Exposure: No Information Available
STOT – Repeated Exposure: No Information Available
Target Organ Effects: No Information Available
Aspiration Hazard: No Information Available
Carcinogenicity: No Information Available

12. ECOLOGICAL INFORMATION

12.A Ecotoxicity: No Information Available
12.B Persistence and Degradability:
No Information Available
12.C Bioaccumulative Potential:
No Information Available
12.D Mobility in Soil: No Information Available
12.E Other adverse effects: No Information Available

13. DISPOSAL CONSIDERATIONS

Water Disposal: Dispose of in accordance with federal, state and local regulations.
Special Considerations: U.S. EPA Characteristic Waste: D001

14. TRANSPORTATION INFORMATION
